## St. Hilda's Chapter O.E.S. Open Installation Ceremony

St. Hilda's Chapter No. 27 O.E.S. installed the 1947 officers on Tuesday evening, January 21st in the Masonic hall, with a colorful and impressive ceremony, and the gathering was open to the Masons and friends.

Mrs. Helen McGhee of Brooks, Past Grand Matron, acted as Installing Officer, assisted by Mrs. Elizabeth Richards of Calgary, Worthy Grand Matron, who was soloist for the evening. She was accompanied at the piano by Mrs. Dora Edwards and Mrs. Kathleen Parsons. Mrs. Cora Young of Banff, Grand Treasurer, assisted with the addenda.

Mrs. Maud Lantz of Didsbury, Grand Elder, acted as Marshal, while Mr. Charles Stewart of Calgary, Past Grand Patron, assisted with the installation, and visitors were present from Carstairs, Olds, and Vancouver.

The following are the officers installed for 1947:

Worthy Matron: Mrs. En Garner. Worthy Patron: Bro. Harry Richardson.

Associate Matron: Mrs. Rose Morris. Assoc. Patron: Bro. Tom Morris. Secretary: Mrs. Helen Gibson.

Treasurer: Mrs. E. Tonley. Conductress: Mrs. Joyce Morgan. Associate Conductress: Mrs. Ellen Richardson.

Chancellor: Mrs. Thompson. Marshal: Mrs. Frances Law. Organist: Mrs. Kathleen Parsons.

Adah: Mrs. Joyce Bensch. Ruth: Mrs. Betty Bowman. Esther: Mrs. Lottie Rouleau.

Martha: Mrs. Helen Eubank. Eleana: Mrs. Lila Wiggins. Warner: Mrs. Mildred Lowrie.

Sentinel: Bro. Geo. Parsons. On installation the Worthy Matron was presented with a bouquet and each officer with a corsage.

In an addenda the retiring Matron was presented with a corsage.

## FORTY YEARS AGO

February 1, 1907

There were 24 entries in the seed fair held in Didsbury on Wednesday and some splendid samples of oats, barley and wheat were shown.

Mr. Liesemer, brother of W. G. Liesemer, arrived this week and will be manager of his brother's hardware business.

The Council of Local Improvement District 16-B-3 met at Zella School on January 26th and the rate of taxation was set at 5 cents per acre. The next meeting will be held on July 6, 1907.

J.V. Borsch's big sale starts on February 1st, and terms will be cash on all sale goods.

## NEW CAR LICENSE PLATES BY MARCH 15

New motor license plates will be made available to Alberta car owners by the provincial secretary's department about March 15. This information has been received by officials of the Alberta Motor Association.

This year as in the last few years, a single plate will be issued, to be attached to the rear of the vehicle. Next year it is hoped that two plates will be issued, one for the front and one for the rear, but this will depend on whether the manufacturers have sufficient material.

As in previous years, license plates will be available at branches of the A.M.A. in Edmonton, Calgary and Lethbridge, where the head offices of the three A.M.A. branches are located.

These branches issue thousands of license plates and drivers' licenses each year and it is a convenience that is greatly appreciated by motor car owners.

In view of prospects for increased car production and expectations for a big holiday traffic, it is expected that applications for car licenses will be the heaviest in many years.

## REV. E.B. FOX NEW PASTOR AT LUTHERAN CHURCH

The Rev. E.B. Fox, formerly of Immanuel Lutheran Church, Calgary, was installed as Pastor of the newly organized Redeemer Lutheran Church of Didsbury on Sunday afternoon, January 19. Pastor Fox and his family moved to Didsbury on Tuesday, January 21 and are residing in the Lutheran parsonage which has been moved into town from Westcott. Pastor Fox succeeds Pastor A.F. Rehner as Lutheran Minister for the Didsbury parish.

## NOMINATIONS FOR TOWN COUNCILLOR AND SCHOOL TRUSTEE FEBRUARY 3

The date for nominations for Town Councillor and School Trustee is set for Monday, February 3rd and nominations for vacancies will be received by F.L. Evans at the town office between 11:00 a.m. and 12:00 noon on this day.

There will be three vacancies on the Town Council. The two-year terms of Councillor Ed Ford and Councillor Ed Watkins have expired, and Councillor H. Lynch-Staunton has resigned.

There will be an election for Mayor this year, the two-year term of Mayor C.F. Rehner also having expired, and we understand that Mayor Rehner will not stand for re-election.

On the Didsbury School Board there will be three vacancies, the terms of A.R. Kendrick, Geo. Law and Tom Morris having expired.

## LETTER TO THE EDITOR

Dear Editor,

I noticed in the editorial of last week the need was stressed for definite parking solution in Didsbury and consequently on the street west of the Bank. I agree with you and would also like to see something being done about the obeying of the stops signs in town. I too, believe it necessary in such a thriving centre as Didsbury. Many motorists rush through the signs or rather by them, as if they weren't there. Have you ever stopped to see how many motorists obey the sign at the railway crossing just east of the Drug store? It's a busy place and hard to approach from either side especially when slippery. I would suggest the signs be obeyed by all the motorists and the law enforced, or otherwise scan the signs altogether.

AN OBSERVER

## KNOX UNITED CHURCH JR. W.A. ELECT 1947 OFFICERS

Knox United Junior W.A. met at the home of Mrs. Walter McCoy on Monday, January 27th, with 19 members present. Mrs. Eckel and Mrs. Morton were visitors from the Sr. W.A.

Officers for 1947 are: President, Mrs. E. Wiggins; Vice-President, Mrs. H. McCulloch; Sec.-Treas., Mrs. H. Wood.

Committee Conveners are: Finance, Mrs. McArthur; Raffle Work, Mrs. Geo. Parsons; Church, Mrs. M. Wood; Manse, Mrs. H. Clarke.

All members were requested to attend the annual Church meeting on January 30 to see what could be done to replace the organ for the Jr. Department of Sunday School.

Lunch was served by Mrs. M. Wood and Mrs. McCoy.

## REV. AND MRS. GREENWAY PERFORM ALL THIS WEEK AT EVANGELICAL CHURCH

Rev. and Mrs. R. Greenway, talented young musicians, commenced evening, February 2nd, in Didsbury on Sunday last when they put on their performance at the Evangelical Church, with both morning and evening programs. Mrs. Greenway, who plays the piano and Irish harp, is a gifted musician, while her husband, a concert violinist, also plays the theremin, a mystery instrument which is a scientific marvel and is played without the performer touching it. Evening performances are being held at the Evangelical Church all this week, and week day programs commence at 8 p.m.

The final program will be held Sunday evening, February 2nd, which commences at 7:30 p.m.

The meetings are open to the general public and if you are interested in music, you are invited to attend the balance of the programs.

Rev. and Mrs. R. Greenway

## WESTCOTT NEWS NOTES

Mrs. Herbert Goetjen was the soloist at the Westcott Ladies' Club while in Calgary last week.

We understand that Don Arimann is moving his family to Sundre shortly.

The card party at Westcott school Thursday night was well attended and nine tables of whist were played. Prizes were won by Mrs. Harry Leavood for the ladies and Mr. "Slim" Bower for the gents, while the consolation were won by Mrs. Ed Klinek and Mr. Lloyd Wood.

Mr. and Mrs. John Stevenson and family of Sundre spent the week end with Mr. and Mrs. Herbert Goetjen and family.

Mr. and Mrs. Fred Goetjen were also Sunday visitors at the Herbert Goetjen home.

The Boy Scouts held another meeting on Saturday night at the Westcott school.

Friends of Mr. Dale Jacobson of Craibrook, B.C., and formerly of Westcott district, will be very sorry that Dale's health has not improved, and that doctors have found it necessary for him to undergo a lung operation, which will have been done last week in a Vancouver hospital. The good wishes of the entire community are extended to him for a complete and speedy recovery.

The program and box social held at the Westcott school on Friday last night was very much a success, and the hockey club made about \$130 from the sale of about fifty boxes.

The program was thoroughly enjoyed and was just a little different inasmuch as it was a musical show and the dapper singing men, jokes, etc., but everyone enjoyed it just the most so that Mr. Jack Rea, who was announcer, had no difficulty getting rid of the boxes. We say thank you boys and well done for such a delightful time.

## ICE CREAMS PRICES RISE

An increase in price of ice cream and ice cream mix in fact, effective January 20, was announced recently by the Wartime Prices and Trade Board.

Effective immediately the bulk purchase price to the consumer will be increased by 1¢ a gallon, 2¢ a quart and 1¢ on pints or bricks. This increase does not effect the price of ice cream cones, novelties or other ice cream confections such as sundaes, sodas or milk shakes. At the wholesale level increases amount to be a gallon, 1½¢ a quart, ¾¢ a pint and 10¢ a gallon on ice cream mix.

Board officials stated the increases were authorized to compensate ice cream manufacturers for the increased cost of fluid milk and con-

## Didsbury Lions Club Plan Ice Carnival For February 12

### USED CAR AND TRUCK PRICES INCREASED

Maximum selling prices of used cars and trucks were increased by approximately ten per cent and seven per cent, respectively, effective Monday, January 20, the Wartime Prices and Trade Board announced. These adjustments of used motor vehicle ceilings allow the recent increases authorized for new cars and trucks and give recognition to the relationship customary between new and used vehicle prices. The increases do not apply to imports and cars and trucks of 1946 or later models.

## OPERATIONAL WINGS AWARDED POSTHUMOUSLY TO FT. SGT. O.D. THOMPSON

Mr. and Mrs. D.O. Thompson of Didsbury, formerly of Brooks, have received Operational Wings awarded posthumously to their son, Flight Sgt. O.D. Thompson, for gallant service in action against the enemy.

The 21-year-old flier was born at Provost and received his schooling at Millcroft and Didsbury. He joined the RCAF in March 1942 and graduated with honors from McDonald, Man., gunnery school in November, 1942. He was also presented with a silver bullet for unusual marksmanship, the first one presented from that school.

He was rear gunner in a Halifax bomber at the time he was reported missing, following a raid over Muhlheim, Germany, on June 23, 1943.

## FIRE AT WESTERDALE DESTROYS BUCKLEY BARN

The annual meeting of the Westdale Young People's Club was held last Tuesday evening in the Westdale Hall with a good attendance present. The financial statement was read and showed that there was a credit of \$105.94 in the bank and \$114.84 on hand. A donation of \$12 was given to the hockey club to help defray expenses on their hockey sweaters.

Membership fees were received after which the election of officers was held. The following officers were elected: President, Mr. R. Jackson, re-elected to office; Sec.-Treas., Mr. S. Jackson, re-elected; Social Vice-Presidents, Mrs. L. Jones, Mrs. W. Herbert and Mrs. R. Jackson, all re-elected; Intellectual Vice-Presidents, Mrs. J. Schrader and Mrs. J. Cowie; Athletic Vice-Presidents, Mr. J. Cowie and Roger Padford; Spiritual Vice President, Mr. L. Jones.

Trustees elected were: Mr. B. Keshaw, Mr. J. Schrader, Mr. H. Rowell, Mr. T. Bolton and Mr. A. Jones.

Following the election a discussion took place with regards to the building of a stage and kitchen on the second floor of the hall. A committee consisting of Mr. L. Jones, Mr. S. Jackson, Mr. R. Jackson, Mr. W. Herbert, Mr. J. Cowie and Mr. R. Heaton were chosen to draw up a plan.

The Westdale boys hockey team journeyed to the H. Daseford skating rink in the Westcott district last Saturday and played the Westcott boys in an exciting game of hockey, winning by a score of 3-1. They will play the Westcott boys again next Saturday afternoon on the Daseford rink.

Mr. Alex Buckley, who lives half a mile east of the Westdale school, had the misfortune to lose his barn by fire last Thursday morning. While doing chores Mr. Buckley noticed the smell of smoke in the air and on investigating found flames burning in the hay loft of the barn. Telephone calls brought help from every direction but the flames were soon beyond control. Several small pigs were lost in the fire but all other stock was safely removed.

Stanley Elder suffered burns on his arms and the back of his neck while removing a saddle from the barn. He was taken to Olds where he received medical attention.

Mr. and Mrs. W. Herbert, accompanied by Mr. and Mrs. R. Jackson and Jim, motored to Calgary last Friday.

Mrs. Frank Herbert is ill in the Didsbury hospital. We wish her a speedy recovery.

Recovered milk products since producer subsidy payments were discontinued last October.

Posters are out announcing the big ice carnival to be held in Didsbury on Wednesday, February 12th, sponsored by the Didsbury Lions Club, and plans are underway to make this one of the biggest events in the winter sport.

A feature of the carnival this year is the Dog Derby, which should attract entries from every part of town and district. Besides skating, races and other events there will be the Chuck Wagon races, which are a big feature of last year's carnival.

A broom ball game has been arranged and interesting events have been planned for both afternoon and evening performances.

\$80 in cash prizes are being offered for carnival events and it is expected that large crowds will be in Didsbury for this big attraction.

A bit moccasin dance will be held to wind up the program in the evening.

Plan now to attend the Didsbury Lions Club big ice carnival on Wednesday, February 12th. See posters for further particulars.

## ADAIR RINK OF BOWDEN WINS IN HIGH SCHOOL 'SPIEL

Despite stiff ice at the Didsbury Curling rink on Saturday the one-day bonspiel of High School students was completed, with final games being played late in the evening.

Prize winners in the main event were: 1st, Adair of Bowden; 2nd, McKenzie of Bowden.

In the consolation, Habkirk of Olds won first with Kimmel of Didsbury second.

Twelve rinks were entered in the bonspiel, six local and six visiting teams.

Visitors were Buehler and Habkirk of Olds, Adair and McKenzie of Bowden, Hart and Fox of Crossfield.

Local rinks entered were: E.H. McDonald, Rupp, Parker, Rennie and Kimmel.

Persons of the local links: Bill Rennie, Joel Barrett, Don LeGrand and Betty Mortimer. George McDonald, Laura McCoy, Don Stiles and Howard Persinger, Arthur Rupp, Ernie Sutton, Barney Hunsinger and Aggie Reimer, Dick Kimmel, Jim Clarke, Joyce Tomlin, Edna Buehler, Bob Erb, Royden Fisher, Arthur Jans and Joyce Wood, John Parker, Earl Scheurer, Jean Rennie and Walter Scheldt.

## VETERANS' BUSINESS AND PROFESSIONAL LOANS ACT

The Veterans' Business and Professional Loans Act, which provides that a veteran may apply to a bank for a loan up to two-thirds of his total expenditure, but not exceeding \$3,000, became effective Wednesday, January 15.

In announcing January 15 as the date of the proclamation of this Act, which was passed at the last Parliamentary session, the Rt. Hon. Ian A. Mackenzie, P.C., Veterans' Affairs Minister, stated regulations for its administration have now been completed in co-operation with the Department of Finance and the chartered banks of Canada.

"The purpose of the new Act," he said, "is to encourage banks to provide additional funds of comparatively low rate of interest to assist veteran seeking to establish themselves in businesses or professions."

"It should be made clear that this legislation does not mean the Government itself is lending the money to veterans. The loans will be made by chartered banks and the banks themselves decide on the credit status of those applying. The Government will be obligated by the guarantee against the proportion of possible losses provided by the new Act. Veterans are therefore aided to make their applications directly to a chartered bank."

Loans made within five years up to a maximum of \$25,000.00 are guaranteed under the Act.

## C.P.R. TRAIN TIME TABLE

Train No.	To Calgary
522	4:51 a.m.
524	11:54 a.m.
526	5:20 p.m.
Train No.	To Edmonton

525	6:19 p.m.

All the above trains are daily.

BRITAIN'S MECHANICAL BRAIN

Experts of Britain's National Physical Laboratory are building a Mechanical Brain. The machine is called the Ace—the Automatic Computing Engine—and it is claimed that the machine will solve in a few

seconds problems which would take a team of mathematicians years to work out.

The Ace will cost more than \$500,000. In this picture one of the laboratory experts is seen at work on the wiring of this very complicated machine.

## The Question of Immigration

THERE ARE INDICATIONS that at the coming session of Parliament one of the most important questions to be considered will be that of immigration. There is growing interest throughout the country in this subject, and already some measures have been taken by the government in respect to it. Recently an Order-in-Council was passed making it possible, under certain conditions, for relatives of Canadians to enter this country. It has also been announced that some special immigration efforts had been sent to Europe because of the need for Canada to take a part in the solution of the refugee problem there.

### "Open Door" Is Not Favored

There is no suggestion even on the part of those most strongly in favor of an expansive immigration program, to institute a "wide open door policy" such as existed here during the early part of this century. A senate committee on immigration which has made a close study of the problem proposes a plan of "selective attraction". Under this plan, immigration officers would be stationed in Europe to interview prospective settlers there, relatives and friends of Canadians would have priority in entering the country and the immigration act would be revised to allow for the finding and selection of immigrants. The report further proposes a "vigorous administration" to encourage the free movement of desirable types of settlers into Canada.

### Shortage Of Labor In U.K.

One factor that is expected to affect any program of immigration which may be introduced here is the acute manpower shortage in the United Kingdom. It is reported that officials coming from the United Kingdom are unwilling to discuss immigration at this time, but it is considered probable that when Canada's policy in regard to this matter is clarified it will be found that people in the United Kingdom may be discouraged from leaving to live elsewhere because of the urgent need for all available labor to carry out post-war projects there. Whatever may develop in the future, it is apparent that there will be much interest both here and abroad, in any discussions which may take place in parliament in connection with this important problem.

### VICKS VAPO-ROL

### Britain's Oldest Peer

Was Given Only Few Hours To Live  
Sixty-Five Years Ago

The London Daily Mail reports that Britain's oldest peer, Lord Haver, who was christened in his mother's bedroom because the doctors gave him only a few hours to live, has died at Chislehurst, near London. He had refused a life insurance policy, at the age of 21, because of his delicate health. Eventually he became deputy chairman of the company that refused him. He was the ninth man in London to have a telephone number. Lord Haver was the oldest knight bachelor (1875) and the oldest baronet (1900) as well as being the oldest peer. He was, so far as is known, also the oldest volunteer in the kingdom, having been a cadet in one of Lord Truro's London regiments at the age of 12.

### A One-Man Show

No Large Committee Was Needed To Welcome Distinguished Guest

During the 1944 presidential election campaign, Governor Dewey was scheduled to make a radio speech originating in a small mid-western city. The network with which the local station was affiliated sent the following telegram to the station owner:

"Gov. Dewey arrives Monday at 9:22 p.m. Please have on hand, at railroad station, your general manager, commercial manager, program director, news director, special events director, chief announcer, and chief engineer."

The station owner wired back: "Don't worry. I'll be there."

### RAW FISH

Vancouver's largest market for fresh fish is the fish market on the waterfront. The market is open from five to nine p.m. and is a good place to get fresh fish. The market is open from five to nine p.m. and is a good place to get fresh fish. The market is open from five to nine p.m. and is a good place to get fresh fish.

### Might Have Been Rich

Miner Did Not Know Gold Walls Of House Contained Gold

When Jack Smythe heard the wonderful stories of quick-money wealth which drifted back from the Victorian goldfields, he forsook his carpenter's tools and made his way to Ballarat. For the next two years he drifted from field to field without success. Smythe was a proud man. He had seen his friends win fortunes from the earth, while he had acquired only enough gold to secure necessities. They had succeeded, he had failed. Finally he decided to retire to an obscure part of the country. He chose Yashub, in Victoria, a place where he knew there was a worked-out mine near which he could make his home. He built his house from clay taken from the disused pit. There he lived in happiness until his death. Later, a neighbor decided to convert the ground where the house stood to a cornfield. The house was demolished and as it crashed, the man saw imprinted in the bricks, tiny specks of gold. The bricks yielded several hundred ounces for Jack Smythe had built his home from an undiscovered vein in the worked-out mine. Fate had allowed him to live in near-poverty in a house worth hundreds of pounds, records Cavalade Storyteller Radio Program, of Australia.

### EXTRA BARS NEEDED TO KEEP PRISONER IN CELL

BOONEVILLE, Ky. A teenage boy, so small that the jailer said extra bars had to be placed on his cell, was being held on a murder charge here.

Judge J. M. King said he ordered Lester Little, 14, held on the charge under \$5,000 bond in connection with the fatal shooting of the boy's cousin, Price Little, 23.

Sheriff Charles McIntosh said the extra bars were put on the cell to keep him from slipping through. McIntosh said the shooting occurred after the Little became involved in an argument over a watch chain while engaged in a shooting match.

### HORRIBLE THOUGHT

They had been married only a month, and he had left for a few minutes while she prepared a salad in the kitchen. "Whatever is the matter, darling?" he asked.

"It's a caterpillar!" she gasped. "Oh, how could I if I had been in the house alone!"

### A BIG DIFFERENCE

The average daily calorie consumption of students in Greece is 970, Germany 1,500, Austria 900, compared with 3,200 calories in Canada and the minimum healthful diet of 2,000 calories.

## AUSTRALIAN SOLDIER ESCAPES BEHEADING

Tells Of Harrowing Experience Under Japanese Custody

TOKYO.—An Australian soldier told the International War Crimes Court that he had lived through a Japanese officer's attempt to behead him—"I felt a heavy, dull blow on the back of my neck"—and eventually had crawled to safety after recovering consciousness to find himself buried in a shallow grave.

He was the first witness called when Australians began the final phase of the international prosecution which began last June 3.

The soldier, Colin Fleming, Brian, 23, of Sydney, New South Wales, said he botched "execution" took place after he was captured, wounded, in battle near Singapore early in 1942. A platoon of Japanese soldiers and 15 Japanese officers stood in parade formation in a jungle clearing. Brian testified, while "I was searched; then the officer who beheaded me cleared said in English: 'You are going to meet your God'."

Brian was ordered to sit down with his feet and legs in the shallow grave. His wrists were tied behind his back and a towel tied over his eyes. The officer, sword in hand, loosened Brian's shirt collar and bent his head forward.

"After a few seconds I felt a heavy, dull blow on the back of my neck," he continued. "I fell over on my right side, then lost consciousness."

"When I regained consciousness I was lying at the bottom of the grave underneath a cloud of earth. I had a large wound in the back of my neck, and was covered with blood."

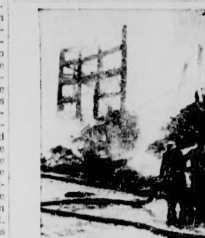

"I lay there for about an hour. I could not use my hands, and the only way I could get out was to lever (move) the pile of cloths with my feet. I managed to dislodge them and crawl out, and staggered to the jungle grass where I lay all day."

That night, he testified, he managed to untie his wrists. After three days, he recalled, Singapore where he surrendered to civil police who handed him over to their "Japanese masters."

He recuperated in Changi prison hospital, and remained in various prisoner of war camps at Singapore until the end of the war, he added.

### WILL TAKE YEARS

John Cunningham, chief test pilot of the De Havilland Aircraft Company of England and a British night flyer of the war, said it will be at least 10 years before man solves the problems of flying faster than the speed of sound.

FIRE IN ELEVATOR KILLS ONE.—One man died and damage estimated at \$80,000 was done in this spectacular blaze which broke out in a grain elevator at Parkhill, Ont., and destroyed the elevator and a chopping mill. The new pump shown in action, delivered to the village fire department only a few days previously, was credited with halting spread of the fire.

## NEW MEDICAL DISCOVERY SUCCESS

Waste Blood With Penicillin Provides Great Curative Jelly

CLEVELAND.—Penicillin mixed with hemoglobin, the red coloring matter of human blood, is curing wounds and sores where nothing else succeeds, not even pure penicillin, it was reported to the American College of Surgeons.

Lt. Col. Felix Janney, of Northwestern University, Chicago, said the discovery was made in two U.S. Army hospitals in England, which were short of medical supplies and on their own initiative tried for new uses of what they had.

Waste blood, of no use to anyone, was one thing these hospitals had in abundance. They extracted the hemoglobin, the form of a red, sticky powder. They mixed it with water, making a jelly and into this jelly they mixed penicillin.

The mixture was placed directly into wounds. The cases at first were only those wounds which had failed to heal with all other available treatments. Penicillin, given internally, had failed. This was because in the blood the penicillin does not get higher than a certain concentration, and this concentration was not strong enough to kill some kinds of germs, which are highly resistant to penicillin.

But in the red blood mixture, the military surgeons placed a much stronger concentration of the wonder drug. In most cases, only one application of this penicillin in human jelly had to be used.

Col. Janney said no bad effects of any sort had been reported. Hemoglobin, itself a human tissue ingredient, has a naturally stimulating effect on tissue growth.

In the hemoglobin the penicillin is released slowly. Pure penicillin did not have the same good effect in wounds, both because it was absorbed too rapidly and because it was irritating to the wound.

Dr. Herbert Conway, of New York, reported that tattooing changes the color of the dark, bluish, smudged blemishes known as port wine stains to nearly normal skin color. Janney has nothing to do with these discoveries.

For tattooing a color is selected that will nearly change the port wine shade to that of ordinary skin. Dr. Conway said that tattooing does a spectacular job of changing the color of a skin graft to match that of the area where the graft is placed.

Tin, one of the earliest metals discovered, is mentioned in several books of the Bible.

FIRE IN ELEVATOR KILLS ONE.—One man died and damage estimated at \$80,000 was done in this spectacular blaze which broke out in a grain elevator at Parkhill, Ont., and destroyed the elevator and a chopping mill. The new pump shown in action, delivered to the village fire department only a few days previously, was credited with halting spread of the fire.

## BACKACHE The Plague of Outdoor Men

The outdoor man, whether he be farmer, truck driver, or railway operator, is often subject to backache. This may be the result of exposure to cold and dampness or the result of strain from the jolting and bumping of the vehicle he rides.

To many people, women as well as men, it would be great to be free of backache—one of the most common and annoying of ailments. And here is how you may be relieved of backache and other symptoms of poisons in the blood.

### Dr. Chase's Liver Pills

Kidney Pills

## FUNNY OTHERWISE

An American soldier in England was giving some illustrations of the size of his country. "You can board a train in the State of Texas at dawn," he said impressively, "and 24 hours later you'll still be in Texas."

"Yes," said one of his English listeners, with feeling. "We've got trains like that here, too."

The young wife greeted her husband affectionately when he returned from the office. "Poor darling," she said. "You must be tired and hungry. Would you like some soup, followed by nice tender chops with golden-brown potatoes and green peas, and then mushrooms on toast?"

"No, darling," her husband answered. "I've saved the money and eat at home."

A Negro who had been exploring chicken coops heard that the sheriff was after him. Hastily he sought the railway station and asked for a ticket to the end of the line on the fastest train.

"Our fastest train left just ten minutes ago," he was told. "Well," gasped the Negro, "give me a ticket an' point out de track!"

The weary father was marching up and down at 1 a.m. with a wailing infant in his arms, when there came a knock at the door. It was the landlord from below, carrying a pair of new shoes.

"Say, old man," he said, "while you're about it, you might break these in for me."

"Is there anything you fancy to eat before the execution?" asked the warden.

"Yes, mushrooms," said the condemned. "I've always been scared to try them in case I'd be poisoned."

Two sweet young things were discussing affairs of the heart. "So you've accepted Tom?" said one ardently. "I suppose he ought to be married. He had previously proposed to me."

"Well, not exactly," replied the other blandly; "he did confess that he'd done a lot of silly things before he met me."

The office of the inspector of taxes and the collector of taxes were in the same building.

A woman who got into the lift said to the liftboy: "Taxes."

"Collector or inspector?" asked the boy.

"Taxes, please," replied the lady. "Now, look ere, man," said the liftboy. "Do yer want ter pay or just 'ave an argument?"

A young man, after eight years' absence, returned alighted at his home station and despite his expectations there was no one there to meet him. He then caught sight of the station master, a friend since boyhood, and he was about to extend a hearty greeting when the other spoke first.

"Hello, George," he said. "Goin' away?"

Scott (leaving his first hockey game) And do you laddies chasing about the ice get paid?

Friend—Oh yes, big salaries. Scott And the lad between the posts. Is he paid, too?

Friend—Certainly; highly paid. Scott—Wouldn't it be cheaper to board up the ice place?

People became so interested in golf that they were neglectful of their archery practice, so Scotland imposed a ban on golf in 1841.

## BACKACHE The Plague of Outdoor Men

The treatment suggested is Dr. Chase's Kidney Liver Pills. By these pills, the stimulating action on both the liver and kidneys, you have two chances to one of getting relief from your backache by using Dr. Chase's Pills. The torpid liver is aroused to action, the kidneys are stimulated and consequently these organs help to purify the blood of the poisonous impurities which bring pain and aches and tired feelings.

Keep regular and keep well by using Dr. Chase's Kidney Liver Pills. A box.

### Dr. Chase's Liver Pills

Kidney Pills

## FUNNY OTHERWISE

An American soldier in England was giving some illustrations of the size of his country. "You can board a train in the State of Texas at dawn," he said impressively, "and 24 hours later you'll still be in Texas."

"Yes," said one of his English listeners, with feeling. "We've got trains like that here, too."

The young wife greeted her husband affectionately when he returned from the office. "Poor darling," she said. "You must be tired and hungry. Would you like some soup, followed by nice tender chops with golden-brown potatoes and green peas, and then mushrooms on toast?"

"No, darling," her husband answered. "I've saved the money and eat at home."

A Negro who had been exploring chicken coops heard that the sheriff was after him. Hastily he sought the railway station and asked for a ticket to the end of the line on the fastest train.

"Our fastest train left just ten minutes ago," he was told. "Well," gasped the Negro, "give me a ticket an' point out de track!"

The weary father was marching up and down at 1 a.m. with a wailing infant in his arms, when there came a knock at the door. It was the landlord from below, carrying a pair of new shoes.

"Say, old man," he said, "while you're about it, you might break these in for me."

"Is there anything you fancy to eat before the execution?" asked the warden.

"Yes, mushrooms," said the condemned. "I've always been scared to try them in case I'd be poisoned."

Two sweet young things were discussing affairs of the heart. "So you've accepted Tom?" said one ardently. "I suppose he ought to be married. He had previously proposed to me."

"Well, not exactly," replied the other blandly; "he did confess that he'd done a lot of silly things before he met me."

The office of the inspector of taxes and the collector of taxes were in the same building.

A woman who got into the lift said to the liftboy: "Taxes."

"Collector or inspector?" asked the boy.

"Taxes, please," replied the lady. "Now, look ere, man," said the liftboy. "Do yer want ter pay or just 'ave an argument?"

A young man, after eight years' absence, returned alighted at his home station and despite his expectations there was no one there to meet him. He then caught sight of the station master, a friend since boyhood, and he was about to extend a hearty greeting when the other spoke first.

"Hello, George," he said. "Goin' away?"

Scott (leaving his first hockey game) And do you laddies chasing about the ice get paid?

Friend—Oh yes, big salaries. Scott And the lad between the posts. Is he paid, too?

Friend—Certainly; highly paid. Scott—Wouldn't it be cheaper to board up the ice place?

People became so interested in golf that they were neglectful of their archery practice, so Scotland imposed a ban on golf in 1841.

### GEMS OF THOUGHT

#### COURTESY

Courtesy is love in trifles, and where love is not, though its counterfeit may abound, courtesy itself is not.—George Jackson.

The most courteous sweetest life; the greater, enable it.—Boyle.

There is a courtesy of the heart; it is allied to love. From it springs the purest courtesy in the outward behavior.—Goethe.

When the heart speaks, however simple the words, its language is always acceptable to those who have hearts.—Baker Eddy.

The courtesies of a small and trivial character are the ones which strike deepest to the grateful and appreciating heart.—Henry Clay.

All doors open to courtesy.—Thomas Fuller.

To help restore shrunken woollens, rinse them in soapy water instead of clear water.

### LEARN HAIRDRESSING

## Oldest Breed In World

## Capture Of Lippizzaner Horses By U.S. Troops Are Fine Prize

(By H. C. Nicholas, in St. Catharines Standard)

WASHINGTON.—One of the most valuable prizes American troops captured in Germany were nine of the famous and beautiful Lippizzaner horses. Horse lovers regard this prize as a greater treasure than the finest art collection in all Europe. These beautiful animals are the oldest and most remarkable breed of horses in the world and had they been destroyed their loss would have been irreparable.

They are second only to the purebred Arabian in antiquity. Their history is even more glamorous as they are direct descendants of the horses ridden by the knights of the Middle Ages.

This breed of horses is so amazingly intelligent that for 500 years they have been known as the "high school" horses of the world. Horsemen are in agreement that the Lippizzaners are justly entitled to be called the super-horses of the animal kingdom.

They cannot run as fast as the thoroughbred, but are bred primarily for the race track, but in every other respect they are vastly superior.

The manner in which these Lippizzaners were captured and thus saved from extinction is in itself a fantastic story. American troops had crossed the Rhine and the Russians were fighting furiously to reach Berlin ahead of us. Germany was completely demoralized.

While U.S. troops were attacking Muenbach, a Wehrmacht officer approached their lines carrying a white flag. When conducted to the field commanding officer, he said "A terrible and unbelievable thing has happened."

"We have the finest string of horses in the world, some of which have been bred for many centuries. We hear the Russians have captured some of our stables and are killing and eating our horses."

"However, there is one of our breeding stables the Russians do not know about and we have 250 of our finest horses there. I want to surrender them to you and save their lives."

When these horses were transferred to U.S. lines and experts examined them and their breeding records, they found that they were indeed some of the finest horses in the world, thoroughbreds which had been taken from Poland, France and Austria and which had been formerly owned by royalty and such noted persons as Baron Rothschild and Aga Khan.

However, what made the eyes of the experts almost pop out of their heads were the famous Lippizzaners, horses which it had been feared had been lost to the world and which had once been ridden by such fabulous knights as Richard the Lion Hearted.

In spite of the great shortage of shipping, nine of them, including Pluto, the most valuable "high school" stud in the world, were brought to this country.

About the year 1660 the Sultan Abdul Hamid presented two snow-white stallions of the finest Arabian breeds to the old Austro-Hungarian monarchy. Later other Arabian stallions of Sultan Soliman were captured, when he besieged Vienna and was beaten back in 1683.

These stallions were bred to the best of the ancient breeds of Andalusians and Neapolitans in the Kist mountains above Trieste. The result was the remarkable half-bred Lippizzaners, which are most powerful and can carry more weight for a greater distance than any other horse.

One of the granddams of Pluto ran 31 miles, six furlongs, in one hour and 30 minutes carrying 200 pounds. There are other ancestors of Pluto which are said to have once exceeded their incredible record.

Emperor Charles VI established the renowned Spanish High School Riding academy in Vienna for the further improvement of the breed. Here, over a period of centuries, they were scientifically trained in all the many manoeuvres used by medieval knights in tournaments and combat: rearing, side-stepping, prancing, francing, springing and sudden changes of pace.

Only those horses which could meet a rigid test were retained. Down through the years these horses developed until they seemed to be almost as intelligent as a man and as affectionate as a child, often following the instructor around like a dog.

When the Germans seized Austria in 1938 they also seized all of these Lippizzaners. But the Germans had never owned any of these horses and found they could not handle them. The prized horses refused to respond to any command of their new owners.

In spite of the intelligence and endurance of the Lippizzaners they were virtually discarded by the Germans for war purposes.

The horses can be ridden only by the most skilled horseman who has undergone years of training. They must be handled most delicately and directed not with reins, but by pressure from the inner leg and calf with an almost imperceptible movement in the seat. This permits both hands always to be free.

The captured Lippizzaners and thoroughbreds cannot be purchased from the government. All breeders, which have ranged from \$100,000 to over \$300,000 for some of

the choice stallions, have been refused. Under the army horse breeding program it is the intention to continue in this country the scientific breeding and training of these horses, as it was started in the days of the Holy Roman Empire in Europe. Some of the great instructors and riders at the Spanish High School Riding academy in Vienna have been brought to this country to help in this work. The horses are now stationed at Pomona, Calif.

While these horses will not be sold, they will be offered to the public for a stud fee of only \$10. This modest charge compares with a stud fee of from \$1,500 to \$2,000 charged by some of the private breeding stables in this country.

Any small farmer or horse-lover may get his mare bred for this modest fee to the noblest and most ancient horse blood of Europe and Arabia. A number of such requests have already been received from South America. It is thus possible that within a few years some of the children in this country will be riding horses more intelligent than any circus horse, the same noble and lovely animals which were ridden by the knights of the Middle Ages.

## Started By Indians

## Use Of Turkey As Domestic Bird Began In 14th Century

The Royal Ontario Museum News comments that gone are the days when father could step out the back door and bring down with his gun a Christmas dinner of wild turkey such as those preserved as specimens in the museum. Use of the turkey as a domestic bird was started on this continent, to which it is native, by the Indians of the American Southwest. From then on it had a remarkable history, being taken to Spain by the Spanish explorers, then going to England in the early 16th century and ultimately being brought back to America by the early settlers.

The turkey has never been considered to have great intellectual powers. In fact, in Norfolk county the early methods of capture displayed great contempt for its acumen. A log-covered pen was constructed, the crovices between the logs being narrow enough so that a turkey could not escape through, and a trench beneath the bottom logs led outside. The trench was then sprinkled with corn and along went the turkey, gobbling with bent head. When the corn came to an end, he raised his head and found himself the pen from which, for him, there was no escape, as it would never occur to him to go out the way he came in.

These stallions were bred to the best of the ancient breeds of Andalusians and Neapolitans in the Kist mountains above Trieste. The result was the remarkable half-bred Lippizzaners, which are most powerful and can carry more weight for a greater distance than any other horse.

One of the granddams of Pluto ran 31 miles, six furlongs, in one hour and 30 minutes carrying 200 pounds. There are other ancestors of Pluto which are said to have once exceeded their incredible record.

Emperor Charles VI established the renowned Spanish High School Riding academy in Vienna for the further improvement of the breed. ## Safe-Breaker Killed, Two Surrender

## Carbon Monoxide

This Gas Is Cause Of Thousands Of Accidental Deaths

Because of Carbon Monoxide—This gas which has caused thousands upon thousands of accidental deaths does not appear in nature. It results almost entirely from incomplete oxidation or the burning of material containing carbon.

It is present during electrical storms, when buildings burn up and after explosions and fires in mines. It is also produced in lime, brick and charcoal kilns. In the laboratory it is produced by heating formic acid and oxalic acid with sulphuric acid. It is found in smoke and in rooms which have been painted and sealed.

Carbon monoxide is particularly dangerous because it has no smell. It is colorless and should not be confused with carbon dioxide gas which is expelled from the lungs in breathing. Carbon monoxide is the gas which kills persons foolish enough to run their motor car engines in an enclosed space such as a garage with the doors closed.

So, beware of carbon monoxide! The Egyptians, long before Biblical times, divided the day into 24 parts.

**JAPANESE CHRISTIANS MEET ON BOMBED TOKYO CAMPUS**—Though Christianity has made comparatively slow progress in Japan, where Shintoism and Buddhism are by far the most popular religions, Japan's Christians have kept their faith alive during the war and post-war eras and one of the largest outdoor religious festivals took place recently on the campus of the Central Theological college in Tokyo. The campus was torn and wrecked by bombs during attacks on the Japanese capital, but the college is operating again. This Japanese woman is shown attending the festival with her three children.

## New Development

## Study Means Of Establishing Television Facilities In Canada

(By John Smaller, CP Staff Writer)

TELEVISION for Canadians, beyond mere generalization, still is the exclusive property of the radio engineer and student of science. As a topic for discussion it has cropped up periodically for more than a decade, but at all times it remains just that. Only a few days ago A. D. Dinton, chairman of the board of governors of the Canadian Broadcasting Corporation, said that the board "has decided that studies should be made of the possibilities of establishing publicly-owned television facilities in Montreal and Toronto."

Both in the United States and the United Kingdom television, to a limited degree, has become public property. In the U.S., and especially in New York where there are upwards of 2,000 receivers in operation, there is talk already of a network. In the U.K., perched high on Highgate hill in North London, Alexandra Palace has been known as the centre of television experimentation and broadcast.

Not so long ago, in New York city, the Television Broadcasters' Association sat through a post-war convocation where the talk was of accomplishments and problems and a display of actual equipment showed just what can be done to date.

Taking as its theme "Television—It's Here," makers of home receivers and transmitters unveiled samples of their products. There were sets with small three-by-five inch screens, ranging up to others the size of a newspaper page. Some were for television alone, others had standard and FM (frequency modulation) radio as well as phonographs. Quoted prices ran from \$200 for table models up to \$2,400 for elaborate consoles.

To prove that network television was in the offing, a display showed coaxial cables at present linking New York and Washington as the beginning of a nationwide system. The convention was told that by the end of the year 3,000 miles would be completed, another 3,000 miles next year and 12,000 miles in service by 1950.

Not content with the spread of black-and-white television, engineers spoke of the new development in color television—the casting aside of mechanical gadgets and the blossoming forth of an all-electronic system—at least in the laboratory.

All this is very interesting. For Canadians how it still means something to receive and discuss since television reception is possible only in areas where television broadcasting takes place. In Canada there is no television broadcasting and for that reason there are no television receivers. None will be bought until such time as someone establishes a broadcasting station and few will venture into the broadcasting field where there is no audience.

A bright note: A television broadcasting station in Detroit is directing programs to Windsor. Some television receivers undoubtedly will be in operation there. Perhaps, if there are enough of these, someone will launch a Canadian broadcasting station... then more receivers will be in operation, and so on.

## Popular With Men

## Prince Philip Of Greece Served On British Destroyer During War

Roy Fisher, now a reporter on the Chicago Daily News, served with Prince Philip in the British Pacific fleet. Fisher, a lieutenant in the U.S. Navy, was a liaison officer with the British. He writes the following for the Daily News:

The man British newspapers are saying will marry Princess Elizabeth is a bright-eyed naval officer who would rather "dig a destroyer for holes" than "be a king."

He is Prince Philip of Greece, with whom I served for 18 months in the British Pacific fleet.

He was executive officer of one of His Britannic Majesty's fleet destroyers and he wasn't looking for any other job.

Sailorish in his two gold stripes and paint-smudged khaki white officer's cap. He was an unorthodox officer who believed in getting as dirty as his men.

Because it was the custom with British men of the sea he gave a full beard which the tropical sun bleached a golden hue. His body was tall and slender and his eyes were keen and piercing.

Even then it was current rumor in the fleet that Philip would be the choice for princess consort. I never heard him either confirm or deny those rumors. He seemed more intent upon getting the forecastle painted or No. 2 cutter in the water.

As executive officer, he was known as "Number One." His fellow officers always used that familiar title on board. Aboard they called him "Number One." To those who knew him best, he was merely "Philip."

He bore his royalty well. He carried his own weight and there never seemed to be any who resented his title.

If Princess Elizabeth is like most girls her age, she should be happy in Sydney, Australia, where there was no more popular officer on board than Prince Philip.

The Australian girls liked his flawless accents, his handsome features—and his beard.

**CHAIRMAN OF INDIA ASSEMBLY**—And delegates shout of "In ulah zindabad" (long live revolution) and "Jai Hind" (victory to India). Dr. Rajendra Prasad, 64-year-old member of the Hindustani League in the interim Indian government, was made permanent chairman of India's constituent assembly. The 62-year-old member of the Khayal Congress party was unopposed for formal election on the third day of the assembly's session, thus far boycotted by the Muslim league on orders of its president, Mohammed Ali Jinnah.

## Items Of Interest

The world's 10 largest islands are Greenland, New Guinea, Borneo, Madagascar, Baffin, Sumatra, Great Britain, Honshu, Victoria and Ellesmere.

Between 50 and 75 per cent. of the rough stone is lost in the polishing and cutting of a diamond.

A number of bird species migrate from New Zealand to regions around the North Pole every year.

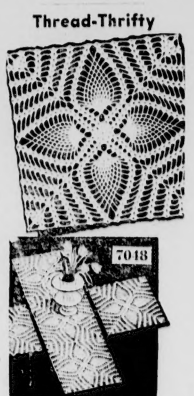

The stars Arcturus and Vega are much brighter than our sun. Vega is 51 times, and Arcturus 112 times, as bright.

Feeding seagulls to cattle on farms is not good practice unless the surplus oil has first been extracted; they contain more fat than the animal can utilize.

Dietetics and nutrition are a modern science, but the word "dietetic" is found in an ancient English dictionary referring to a book written in 1597.

Chinese folklore attributes the discovery of tea in 2737 B.C. to Shen Nung, an emperor called the "Divine Healer."

Expensive cattle, horses or other animals sometimes are X-rayed like humans to diagnose diseases or to discover incipient causes of lameness.

## Thread-Thrift

It takes less than one half of cotton for this 12-inch square! Popular because of its beauty and the numerous ways it can be used.

Even a beginner will find this thread-saving square easy to make, and enjoy making it. Pattern 7018 has directions, stitches.

To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McEwan Avenue, Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number.

## A PROBLEM FOR ALBERTA

The newspaper reports from Edmonton of approximately twenty three hundred teachers in this province, and between fifteen and twenty per cent of the children are receiving their education by mail. This is a serious situation.

According to the figures given there is a shortage of approximately twenty three hundred teachers in this province, and between fifteen and twenty per cent of the children are receiving their education by mail. This is a serious situation.

Actually, each of the 15,671 mailbox students we read about gets a letter once a week from his teacher in Edmonton. Once a week—that's all. Just think how helpful encouraging and inspiring a teacher can be to a child she sees all day for five days a week; and then think how little influence she can exert by writing to him once a week. He doesn't even know what she looks like.

The reason for this shortage of teachers is obviously the smallness of the salaries and the lack of assurance of a promising future.

It is impossible for the municipalities to assume a larger share of the cost of schooling, and therefore it is up to the government to shoulder the additional burden.

It is generally recognized that the progress of a nation depends upon the soundness of its educational facilities. This being the case there should be no argument as to where the duty of the government lies.

## CANADA AS A WHEAT EXPORTER

Out of every four bushels of wheat delivered by Western Canadian farmers, at least three bushels must find a market outlet overseas. That fact should never be lost sight of by the people of Western Canada at least. Without substantial markets overseas Western Canada cannot be prosperous for despite the increase in mixed farming wheat is still the key product in this area.

What is ahead for the world wheat trade is something no one

can say at the present. But there is a substantial portion of the British market assured to Canada, and Britain is the largest wheat importing nation in the world.

Right now there is a demand for all the wheat available, but this situation may not exist for much longer. This matter is one that concerns the whole nation in general, and Western Canada in particular, and should never be overlooked.

Neither holding out nor giving in is the answer to deadlock. It's moving ahead—together.

## IRISH DISTRACTING RACE

In a letter to George Wilcox, manager of the Pioneer Grain Company, Ltd., in Calgary, Fraser Henderson of Winnipeg, who serves overseas with the Royal Winnipeg Rifles, makes the following observations arising from a holiday in Ireland and subsequent talks to Canadians in England by the famous Irish commander, General Montgomery:

"It may be true, as one paper said, that the only solution to the Irish trouble is to 'tow the island out into the Atlantic and sink it,' but what in the world would England do for generals then?"

It was lucky that I had my last leave in Ireland over Christmas now that they have the ban on. The only regret I have is for the chaps, who usually go back home on leave, and their people at home. "It is a most distracting country but I must confess I have a great affection for it nevertheless, and I have had so many happy times there with some grand people. "They're an amazing race. You can never make up your mind about them."

However, a good many of the Imperial staff will miss those leaves. General Montgomery won't be able to see his mother in London, nor Sir Allan Brooke, nor General Nye. Of course General Alexander and Sir John Dill are away and won't be going to the land of saints and scholars till after the trouble is over."

## HOSPITALS WITHOUT MATTRESSES AND PILLOWS

Can you imagine a hospital without a mattress or a pillow? That is one of the reports made concerning a 60-bed hospital at Lunchi, China, to the Canadian Aid to China Fund. It is because of such reports and the needs they uncover 1947 to cover a vital program of 1947 relief and rehabilitation in China.

At the particular hospital mentioned above, they have only 30 sheets, and must reserve them for post-operative cases. They are almost completely out of enamelware, even in their operating room. In bombing they lost most of their glassware. The operating room has only an old wooden table, and no proper lighting fixtures—only a lamp. Their supply of instruments is small, and the instruments they have are in poor condition. They need cans for surgical dressings, bottles for storing catgut and such things; textbooks for nurses; X-ray equipment and rubber gloves.

Multiply this hospital's wants by hundreds, and you have some idea of the task facing the Canadian Aid to China Fund in its efforts to re-

equip Chinese hospitals. With sickness and malnutrition rampant in China, hospitals are a primary requirement in the re-building of a war-ravaged land.

The Canadian Aid to China Fund knows that Canadians will appreciate the desperate peace-time plight of a gallant war-time ally—and give generously.

It's not change of face we need, nor change of pace, but change of heart.

YOU PAY THE SAME for Counter Check Books, whether you order them from a salesman, or from The Didsbury Pioneer. Buy at home and support local industry.

## CARD OF THANKS

I wish to thank the friends and neighbors who so kindly helped last week at the time of the fire, when our home was destroyed.

ALEX BUCKLEY

## NOTICE OF ANNUAL MEETING

THE NEAPOLIS CO-OPERATIVE DAIRY ASS'N LTD. will hold their annual meeting on Thursday, February 6, 1947, at the Neapolis Cheese Factory at 1:30 o'clock p.m.

## TOWN OF DIDSBURY

## MUNICIPAL ELECTIONS—1947

Public notice is hereby given that I will attend at my office in the Town of Didsbury on Monday, the 3rd day of February, 1947, from 11 o'clock in the forenoon until 12:00 o'clock noon, for the purpose of receiving nominations of candidates for the office of Councillor for the next ensuing three years, and for the office of Mayor for the ensuing two years.

Given under my hand at Didsbury, Alberta, this twenty-second day of January, A.D. 1947.

F.L. EVANS,

Returning Officer

## Didsbury School District No. 652

## SCHOOL TRUSTEES ELECTIONS (1947)

Public notice is hereby given that I will attend at my office on Monday, the 3rd day of February, 1947, from 11 o'clock in the forenoon until 12:00 o'clock noon, for the purpose of receiving nominations of candidates for the office of School Trustee for the ensuing two years.

Given under my hand at Didsbury, Alberta, this twenty-second day of January, A.D. 1947.

F.L. EVANS,

#### TEST YOUR WEATHERED WHEAT

Officials of the Dominion Experimental Station, Swift Current, Saskatchewan, have reported on germination tests of wheat which was exposed to severe weathering during

the last harvest. They say that some samples which graded as high as number 3 or number 4 northern show a germination test of only 60 per cent. Farmers are warned that if they use seed germinating 65 per cent it will be necessary to sow an extra 30 pounds per acre next season in order to secure a full yield.

## Quarterly and Annual Reports Of Rosebud Health District

Following is the fourth quarterly report of the work done by the Rosebud Health Unit Staff between October 1st and December 31st, as presented to the District Board of Health by Miss Marion Robinson, R.N., Senior Health Nurse.

Personnel: At the beginning of this Quarter Mrs. Jean Stevens was temporarily filling in as Secretary-Technician. We were fortunate in securing the services of Miss Mary Brauer, for our permanent staff, on October 15th. Our sincere thanks to Mrs. Stevens for helping us during the period of transition.

Health Education: Has been carried on by interviews, conferences, distribution of literature, films, and the School Health Booster.

At the request of the Inspector for the Olds School Division, Miss Robinson spoke to the teachers of the Olds Inspectorate at their convention in Calgary, on "Relationship of the Health Unit to the School." In conjunction with the National Film Board "Eyes of Tomorrow," a film concerning conservation of children's vision, followed.

In response to a request from the United Church Junior W.A. an evening of educational films was shown on November 28th. Projection was again supervised by the National Film Board's representative.

Infant Welfare and Home Visit: Regular Well Baby Clinics were held at Olds, Sundre, Carstairs, Crossfield, Cremona and Didsbury. Attendance has been maintained, and a marked increase at the Sundre Clinic noted.

Infant Home visits to schools were made totalling 34, whenever weather and roads permitted.

Schools: Eighty-one visits to schools were tallied in this quarter, but these were concerned, mainly with Immunization and Communicable Disease, rather than examinations.

The Christmas Edition of the "Health Booster" was mailed to all schools, and the final Two Nutrition

posters as supplied through the Provincial Department of Health Education, were likewise distributed.

Immunizations: Have been carried on at the regular clinics. In October and November the rural program was completed. This comprised three visits to each of the twenty-five country schools. A gratifying attendance was maintained throughout.

The special clinic was held at the Rosebud Hutterite Colony for the purpose of giving the children reinforcements and vaccinations.

Communicable Disease: Early in this quarter Dr. McFetridge of Didsbury was consulted regarding a serious outbreak of Impetigo among the Hutterite children attending Elba School. A trip was made to the Colony, with the Doctor in charge of examining those infected. Following treatment, satisfactory results were obtained.

In October there was an outbreak of Chickenpox in the Water Valley district, with twenty-four cases reported.

Serious cases of Red Measles had been reported from the Sundre and Olds districts during October. Late in November the Town of Olds suffered an epidemic. Several children developed serious complications, and one infant died as a result of these.

At the beginning of the new quarter the epidemic appears to have abated.

It might be of interest to the Board to know that the two children in the District who had Polio-miellitis in September, have taken advantage of the after-care given such cases by the Provincial Government and one is now a patient at the Junior Red Cross Hospital in Calgary.

Tuberculosis: Dr. J.M. Harvey of Olds reported a school in the district where all the children had been directly exposed to Tuberculosis. All were tested, but not entirely to our satisfaction. We have to repeat this examination in the near future.

The have been quite a few modern improvements to country homes and Mr. Mooney has been kept busy answering calls re: Sewage Tank Installations and giving advice on Disposal Fields.

Mr. Mooney also recommended to the Town Councils of Olds and Didsbury that a Bylaw be enacted that Restaurants handle milk in 1-pint bottles only, to be consumed on the premises, setting out his argument from the standpoint of sanitation.

#### ANNUAL STATISTICAL REPORT

This is the annual statistical report of the activities of the Rosebud Health Unit, for the year just completed.

Personnel: During that period there have been several staff changes. Dr. T.S. Macdonald resigned as Medical Officer of Health in February. Also in February Miss M. Robinson joined the staff as Junior Nurse. Mrs. H.E. Findlay resigned her position as Senior Nurse in April. Mrs. J. Stevens resigned her position as Secretary-Technician in July, and was replaced by Miss Marie Stone, who was only with us two and one-half months. Miss Mary Brauer was accepted to the permanent staff in October as Secretary-Technician. During the summer months Miss C. Nicol relieved as Junior nurse, leaving in September for University. Her position was filled in September by Miss J. McNair.

Mr. J.C. Mooney attended a refresher course for Sanitary Inspectors in April and during that month Miss Robinson attended the A.A.R. N. Convention and a Departmental Conference. Both of the above-mentioned attended the Public Health Convention in Banff in September.

Health Education: Has been carried on by distribution of literature, conferences, interviews, lectures, films and the School Health Booster. Mr. C.C. Froy visited several schools in the district in January, showing films and lecturing on health.

Immunizations: Infant and Pre-school Welfare and Immunization clinics have been held regularly at Olds, Sundre, Didsbury, Carstairs, Crossfield and Cremona. Temporary Immunization clinics were held at forty rural schools during the year. Attendance at all of these has been gratifying.

For the past five years this unit carried out a full series of immunizations at the Olds School of Agriculture. This year it was decided to discontinue this service and concentrate on the rural program. Our authorities were glad to see this service given during the war years, when medical staffs were at a minimum, but now feel that the taxpayers of the district merit our attention. Vaccines, toxins and toxoids were distributed from the Health District office for this purpose.

Communicable Disease: There were 315 cases of communicable disease reported and quarantined in this area, and 349 home visits made concerning these. The majority of

(Continued on Page 6)

## Good News For MOTORISTS

One of Alberta's greatest needs is good roads.

The recently announced outline of a \$9,500,000 Highway Construction Program for the Province in 1947 is good news indeed to motorists, and indeed to everyone in Alberta, including farmers, transportation companies and business men generally.

The A.M.A. heartily endorses this program. It is a step towards the system of all-weather highways that Alberta needs, and that the A.M.A. has consistently advocated.

#### NOTICE OF ANNUAL MEETING

Didsbury School District No. 652

PUBLIC NOTICE is hereby given that a meeting of the electors of Didsbury School District No. 652, will be held in the High School Building, Didsbury, on Friday, the 31st day of January, 1947, at eight o'clock p.m., for the purpose of receiving the reports of the Board of Trustees of the said School District for the year ending December 31st, 1946.

ROY G. McARTHUR,  
Secretary-Treasurer

#### WET SURFACE PAINT

That the surface to be painted should always be dry when applying fresh coats of paint to the farm buildings is a golden rule of farmers. There is, however, one exception to be used, the cement surface should first be thoroughly dampened to reduce surface suction and to harden the paint. Every cement water paint is not in that category.

TOWN OF DIDSBURY

Public notice is hereby given that a meeting of the electors of the Town of Didsbury will be held in the Didsbury School on Friday, the 31st day of January, 1947, at eight o'clock p.m., for the purpose of receiving the report of the Mayor, Secretary-Treasurer, Auditor and Chairmen of the various committees of the Council for the year ending December 31, 1946. Dated at Didsbury this 20th day of January, 1947.

F.L. EVANS,  
Secretary-Treasurer

so that care should be taken to follow the manufacturer's directions closely before applying the paint.

Most powerful weapon in the fight against tuberculosis is the X-ray. Christmas Seal dollars are still needed to buy more Mobile X-ray units. If you haven't sent yours, do it now.

Government of the Province of Alberta  
Department of Agriculture

#### FORAGE CROP SEED DISTRIBUTION POLICY

To encourage a wider use of forage crops, the Alberta Department of Agriculture has arranged to make grass and legume seeds available to farmers at cost.

For details as to kinds of seed and prices, see the following local representatives who are co-operating in this Policy:

CREAMERY, Sundre  
CREAMERY (C.A.D.P.), Olds  
A.W. ESLER, Pool Elevator, Didsbury  
ROY WISHART, Pool Elevator, Carstairs  
HARRY MAY, Crossfield

#### SEED SUPPLIES ARE LIMITED

Only farmers who place their orders for seed at an early date can be assured that seed will be available.

For additional information see your District Agriculturist at Olds.

ROSEBUD HEALTH DISTRICT  
FOURTH QUARTERLY REPORT

(Concluded From Page 5)

cases were Red Measles, with epidemics in the Olds and Didsbury districts accounting for the largest number. There were 65 cases of Chickenpox, four Scarlet Fever, two Whooping Cough, two Polio-myelitis, and one of Mumps. The balance were minor diseases, such as Ringworm, Impetigo and Scabies.

Schools: During the past year 221 school visits were made, and 1787 children inspected by the nurses. Some of the outlying schools have not been visited for some time but we hope to bring these examinations up to date in the near future.

Sanitation: In Didsbury Mr. Tom Morris, local dairyman, installed a Pasteurizer during the month of July and the Didsbury consumers are now being served with "Safe Milk." In the interests of health Mr. Mooney has kept "Pasteurized Milk" to the front and hopes to see "Safe Milk" distributed in the villages throughout his territory as well as the Towns before many more annual reports are given.

Equipment: Authorization was given at the July Board meeting for the purchase of essential furnishings in the living quarters of the unit.

The Ford Sedan was traded in on a Chevrolet Sedan in November. The new car has been most satisfactory to date.

Mr. Peterson, our janitor, did a grand job of the lawns this fall, the new lawn mower making mowing a pleasure.

May we take this opportunity to thank the members of the Health District Board, the Department of Public Health, and the officials of the various Villages, Towns and Municipalities for their encouragement and help during the past year.

MARION ROBINSON, P.H.N.,  
Senior Health Nurse

**AUDITOR'S CERTIFICATE**

I have audited the accounts of the Town of Didsbury for the year ending December 31, 1946, and have compared the said accounts with their relative vouchers and certify that in my opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Town, according to the best of my information, the explanations given to me, and as shown by the records.

Dated at Didsbury, Alberta, this 11th day of January, 1947.

**A. BRUSSO, Auditor**

**SECRETARY-TREASURER'S CERTIFICATE**

The information contained in this Report is as shown by the Books and Records of the Town, from my own observation, or obtained from other officials of the Town—and all of which I certify to be true and correct according to the best of my knowledge and belief.

Dated January 11, 1947

**F. L. EVANS, Sec. Treas.**

## BURNSIDE NEWS NOTES

Dick Jenkins was seen on the gravel road proudly driving home a new Oliver tractor. Dick apparently has spring fever.

Vigo Torp is in the district again after spending the Christmas season in Calgary. The newlyweds, Mr. and Mrs. Jack Underhay, are anxiously waiting to get into their new home.

Owing to the phone being put out of commission Sandy Brander had to make a personal call on Charlie Mardon to deliver a message.

Mrs. Joe Clarke is on the sick list suffering from a severe cold.

Mrs. Arthur Jenkins took a ride out to her farm home and visited with her sons, Dick and Dennis. Stanley Baptist has taken over the lumber yard at Sunnyslope and we understand that he is going into partnership with Mr. Penner.

The dance of the Neapolis Skating Club held at Lone Pine Hall on Friday was well attended. The brief storm Saturday night was so severe that a number of farmers and their families had some difficulty in getting home due to poor visibility caused by falling snow.

Mr. and Mrs. Dennis Jenkins are spending the week end at Claresholm visiting with Mr. and Mrs. Idris Jenkins.

## Oldsmobile Hydra-matic

A news item in the "Pioneer" last week referred to a car now manufactured in England with no clutch pedal or gear shift. Wonderful! And what a pleasure to drive one—But why go to England?

## THE OLDSMOBILE HYDRA-MATIC

Has these features and they are proven by millions of miles of service during the war.

## THESE FEATURES INCLUDE:

No clutch pedal, no gear shift, eliminates jerky starts, can not stall the motor, better gas mileage, faster getaway and pick-up for passing, with smoother, quieter operation, less wear and less driving fatigue.

## -: DISTRICT NEWS :-

## NOTES FROM THE EAST

We are pleased to report that little Sandra Brander was able to return home on Thursday after spending a week in hospital. Sandra is feeling fine again.

Jean Coates and Dwayne Fobes were Sunday supper guests at the home of Mr. and Mrs. W. Schoelkopf. Three miles takes a long time, doesn't it kids?

Mrs. Walter McCulloch is spending a few days with Mrs. Otto Bittner helping with the new baby.

Mr. and Mrs. Gordon Rathburn and family, after shovelling snow for an hour or so, had supper and spent the evening with Mr. and Mrs. H. Shells.

Mr. George Long is spending a few days visiting in Didsbury—Perhaps also recuperating from a slight mishap on Monday afternoon.

Mr. and Mrs. H. Shells were supper guests at Thompson's on Wednesday evening.

Beverly Thompson spent a couple of days visiting with Dorothy Ball.

Mrs. Elwood Topley, who has been quite ill for the past while, is somewhat improved.

Little Donna Blain, who has been seriously ill, is now progressing favorably.

Mr. George Shells is still in Hanna where he expects to remain for at least a month. George is taking chiropractic treatment from Doctor John Paxman.

Mrs. Tom Noble was visiting with her mother, Mrs. Jenkins, for a few days.

Mr. and Mrs. W. Coates were Sunday guests at the home of Mr. and Mrs. Billy Coates.

The Neapolis Skating Club held their dance at Lone Pine Hall on Friday, Jan. 25. Everyone reports it to have been the best dance in ages. The music, supplied by Halliday's orchestra, was especially peppy and made a real time for all.

Mr. and Mrs. D.B. Wood and Kenneth, and Mr. and Mrs. Joe Clarke were Tuesday night supper guests with Mr. and Mrs. Pete Schumaker and family.

Mr. and Mrs. Lloyd Cipperley spent Saturday evening at the Fred Metz home.

Burnside School Board held their annual meeting on Saturday in the school. Fred Metz retired from the board as his time had expired. Mr. Sandy Brander was elected to the board in Mr. Metz's place. The board now consists of Harold Metz, Capt. Page and Sandy Brander.

Mr. and Mrs. Jay Todd and family spent Sunday with Mrs. Todd's parents, Mr. and Mrs. H. Viney of Didsbury.

Albert Milne visits the Fred Metz home quite frequently. What's the attraction?

Mr. Corny Neufeld was seen hauling some furniture Torrington way last Saturday. We are wondering.

Don't forget the date of the W.H. Metz auction sale—February 12th. The Sunnyslope Girls Club is sponsoring a Skating Party on February 7th, commencing at 8:00 p.m. Music will be supplied for skating and there will be a very good lunch served.

Bring your friends and have a good time.

## BERGEN NEWS NOTES

Ezra Thiessen brought out his car last week but Anne has gone back to Neapolis.

Vincent Burkman of Manitoba is working for Paul Toews.

Ernest, Katherine, Margaret and Charlotte Baerg were at camp for a short visit.

Susanna, Sammy and Levi Boese are in camp for a short visit. I do not know how they enjoy a "trek" to Sharnerville.

Miss Lydda Doerksen is also a recent comer to the Valley. She should stay and help Bertha feed the crew and keep them contented.

Mrs. Anna Ratzlaff visited camp for a few days but has now gone home.

Mrs. Leon Uhrich and Mrs. Norman Klassen are at home in Linden for a few days.

Walter Baerg went home to attend the silver wedding of his parents, Mr. and Mrs. Jake Baerg. His two sisters came to camp for a "once over" and then returned home.

Leon Uhrich and Abe Klassen have again traded jobs and Abe is at Paul Toews' mill.

Mrs. Paul Toews was unable to be in camp last week because of illness. She is here again enjoying the camp life and the trees.

The Baerg-Shartner mill has almost reached the 10,000 ft. mark. The contest lies between Paul and Toby.

The Haug boys have a saw mill on the N.W. of 28-31-6-5. Lief Ericson is sawyer, Chris Admussen tail sawyer, Norman Halvorson is trimmer and lumber piler, while Jimmy Haug is dogger.

John Haug bought Reder Ericson's "cat" so Edwin Clarke is the "cat wrangler."

The Lyle boys are buying a "cat"

and they bought a new saw mill from Edmonton.

I need plenty of "dust" but not saw dust.

Stella Richardson and Pearl Johnson are visiting in the neighborhood.

Rosella Barkman of Swatwell visited her sister, Mrs. Pete Baerg this week.

Mr. and Mrs. Pete Baerg are planning to attend a reception held in Swatwell for her brother, Ben Barkman, who was married recently.

## PLEASE PHONE OR BRING IN YOUR NEWS ITEMS

This newspaper cannot make a house to house canvass for news, but it is always glad to have it "phoned" or handed in. We want all the news. We are just as pleased to mention your guests or your visit as to mention doings of your neighbors—but maybe your neighbors—operated with us in getting the facts. Please let us have your news items. Our columns are always open to them. And remember they must be in before Tuesday noon, if at all possible.

Begin to compromise and you soon begin to criticize.

To earn your salt be saltier—the kind that doesn't lose its savor.

To some women "housewife" means one who loves her home more than her husband.

WORLD HAPPENINGS  
BRIEFLY TOLD

The steamship Royal Ulsterman is back on the Glasgow-Belfast route after six years' suspension.

Because of staff shortages students at a new teachers' training college had to perform kitchen duties.

Trans-Pacific Air Service between Australia and Vancouver may soon go on a weekly basis, radio Australia reports.

The museum of the Public Record Office, where the Domesday Book is kept, has been reopened after the wartime shutdown.

Food imports to Germany from the United States during the last quarter fell almost 50 per cent, short of requirements for the United States occupation zone.

The bureau of labor statistics said the total bill of the average manufacturer's family with United States rose almost 1 1/2 per cent, from mid-October to mid-November.

Moscow radio said that Yugoslavia had demanded an allied purge of "Nazi elements" within the present government of Austria prior to conclusion of any peace treaty with that country.

World's water-skiing title is claimed by Ernie Simps, who is well known to patrons of London's sea-front restaurants. He has averaged 60,000 meters and his average time is six minutes.

## Newest Small Plane

Carries Four Passengers And Can Travel 150 Miles An Hour

A United Kingdom aircraft company has just produced a remarkable new aircraft. Known as the Gemini, it is a two-motored machine designed for private owners and as an air taxi or ambulance, reports the Empire Digest. It has ample room for four people and their luggage. The speed is one hundred and fifty miles per hour. The manufacturers claim that the Gemini is a good jump ahead of contemporary light aircraft and London press correspondents who were present at a recent demonstration of the plane seem to agree with them. Ease of handling and remarkable freedom from noise and vibration are two qualities about which they are very enthusiastic. The outstanding feature of this twin-engined machine is, however, its wonderful one-engine performance. In the demonstration the pilot, flying one engine, is able to make steep turns and climb with the motionless under perfect control. It is this feature in particular which is expected to make Gemini one of the most popular machines for the private pilot, above all in the more difficult flying areas—i.e., mountainous or jungle regions.

## ON INSTALLMENT PLAN

PRINCE RUPERT, B.C.—Twenty-four juveniles, including two girls, have 11 months to make good payment of \$600 for property damaged here last Halloween. The juveniles, chiefly high school students, were convicted in juvenile court and Judge W. D. Vance ordered them to pay the damage, each to contribute a share, and he put them on suspended sentence for 11 months. It was the worst Halloween damage in the history of the city.

Quinine was used in primitive family medicine chests for hundreds of years before being accepted in scientific pharmacopoeias.

## V-2 Lights Desert

Scientists who helped develop the proximity fuse, Dr. L. J. Paddison, holds an army rifle-grenade with which man-made meteorites were shot from the German V-2 rocket sent skyward at White Sands, N.M., proving ground.

When the German V-2 rocket streaked skyward in a night test at White Sands, N.M., flames from its jet engine lit the desert for three miles and residents 150 miles away reported seeing a red glow in the sky. None of them saw with the naked eye "shooting stars" from explosives the rocket carried. These artificial meteorites were formed when a test of the explosives was made.

## Natural Conditions

Air Found Best For Testing Out New Types Of Planes

A supply ministry spokesman said that Britain's newest aircraft, jet-propelled and otherwise, likely will be tested in Canada and other parts of the British Commonwealth, and engine before final designs are fixed.

Cold weather and other tests will be made in Canada where modern British machines including the jet motor have already been flown in the north under conditions of severe cold. Such tests have been made with the co-operation of Canadian authorities.

"We try to do as much as possible in wind tunnels but it has been found that tests under natural conditions in varying climates are helpful," the spokesman said.

Several revolutionary aircraft designs are being developed by Britain and it is anticipated that Canada probably will see them in action as soon as most British residents.

Australia has more species of ants than any other continent.

Health  
LEAGUE OF  
CANADA  
presents  
TOPICS  
OF  
VITAL  
INTEREST

YOUR FEET NEED CARE AND EXERCISE

Take care of your feet because they are your means of getting around.

As a first-aid to tired feet, a foot-bath should be a must in bed-time. Warm water, plenty of soap lather worked up with a hand brush, followed by a cold plunge or spray will remove the day's accumulation of dirt, perspiration and dead skin that forms on the feet.

Toenails should be brushed briskly and an orange-wood stick should be used on them. A wet pumice stone rubbed over the softened corns and calluses will insure comfort. A piece of molskin or a felt ring properly placed retards the regrowth of these annoying excrescences. Use of razor blades on the feet is always dangerous.

The following exercises if performed exactly as outlined can be of great benefit in strengthening weakened muscles and in rejuvenating feet suffering from fatigue. Choose one or two which you can do comfortably and do them every morning first thing out of bed. Three minutes at most is all the time you need. At the start do each exercise five times. As your feet become more pliant increase the number of movements until you can comfortably do each exercise ten times.

To Strengthen Feet and Leg Muscles

Place two chairs close together. Sit on one with your legs extended over the other so that the heels are free and the feet are about twelve inches apart. The following motions are performed with the feet only, the legs being held perfectly still:

1.—Bring the feet up; 2.—Curl the toes down; 3.—Push the feet down; 4.—Turn feet inward attempting to touch, side together; 5.—Pull feet well back holding for a few seconds, and then start all over again with No. 1.

To Strengthen the Muscles Supporting The Arch—

Take the same position as in the previous exercise. Turn feet inward, making the soles touch. Hold for a count of five, then relax.

To Benefit the Metatarsal Arch—

Stand on a large book with toes extended over the edge. Pull the toes down attempting to touch the sole of the book with the underside of the toes. Hold for a count of three. Relax. The picking up of small objects with the toes is another useful exercise.

For Fatigue and Pain in Calf and Knee Due to Muscular Tension—

Stand, shoulders with feet parallel and hoist erect, facing a wall. Place hands on wall at shoulder height and allow the erect body to approach the wall slowly, making certain the heels remain on the ground. Hold for a count of five. If properly done, fatigue will be felt at the calves. Increasing the distance between yourself and the wall increases the severity of this exercise.

To Feel Right — Eat Right!

## PANDA FOR PAMELA

When the military hospital at Peterborough, Ont., turned ex-Artilery Sergeant Jim Jordan lost 200 lbs. worth of belongings, among them a Panda Bear for his two-year-old Pamela. A store-to-store search left Jim still without a Panda and the prospect for Pamela's merry Christmas looked blank indeed. But Pamela's faith in Santa Claus was saved when a Niagara Falls, Ont., man unexpectedly provided a twin substitute.

## New Passports

Separate Documents Are Now Required By Husband And Wife

Major changes in the issuing of Canadian passports came into effect January 1, as follows:

1. The cost will be raised from \$3 for a new one and \$1 for a five-year renewal to \$5 and \$2.50.

2. They will indicate that the bearer is a Canadian citizen, rather than a British subject.

3. Separate passports will be obligatory for husband and wife, who formerly travelled on a joint document.

The citizenship regulation is in line with the Canadian Citizenship Act, which came into force January 1. The new arrangement for husband and wife is aimed at facilitating their travel in other countries. Previously, as a Canadian couple landed in a foreign country and wished to travel from there to different countries, this could be done only by one of them. The one without the passport would be left immobile.

Raising of the passport price follows the postwar bandwagon of the figures in which Canadians may travel. During the war, about all an ordinary citizen could do with a passport was to get into the United States, and accordingly lower rates were posted.

## New Knights

Viscount Alexander Among Those Honored By King George

LONDON—The King invested six new knights with the Order of the Garter. They received their decorations kneeling in the presence of the Queen and Queen Mary, at Buckingham Palace.

Those installed in the first such ceremony of the Order ever to take place outside St. George's Chapel at Windsor, were Lord Addison, Cranborne, Mountbatten, Alanbrooke, Portal and Montgomery.

A seventh new knight, Viscount Alexander, Governor General of Canada, was unable to be present.

Have you ever tried dropping ice cubes into hanging pants instead of watering in the usual manner? It will save time and mess.

## QUITE A PROFIT

In a consignment of apples a fruit grower of Westmeath, Eire, recently sent to Dublin was one which had been split and a note giving his address inserted, the London Sunday Express relates. The note read: "I sold this apple for a penny. How much did you pay for it?" The grower received a reply from a Dublin woman, saying a trader had the nerve to charge her 9d for it.

## REASON FOR YELL

St. Thomas Times-Journal is somewhat annoyed because the W.P.T.B. won't let the bakers resume their slicing of bread. No bakers join the Ottawa Citizen, in this yell, save the Ottawa Citizen, it being our job to put the family breadknife in trim when it's used for sharpening pencils, trying the lids off cans and chopping the ice off the steps of the back stoop.

And Meet Your Friends

On Thursday evening, January 23rd, Rev. D. Whyte Smith and Mrs. Smith, and ten teachers of Knox United Sunday School met at the home of the Superintendent, Mrs. Bruce Parker, for the monthly meeting. At the close of the meeting Mrs. Parker served a delicious lunch.

### PRODUCING REGISTERED SEED

(H.G.L. Strange)  
Many farmers, it seems, noting the premium charged for Registered seed have come to the conclusion that this premium was easy money, and so many have been purchasing Registered seed not to improve their own crops but to sell as Registered seed. They have sown and harvested their crops under

## J.V. BERSCHT & SONS

Shoes and Clothing

PHONE 36 DIDSBURY, ALTA

ordinary field conditions, have done no extra work on their fields, and sometimes sent the harvested seed to a central plant for cleaning and sale.

Registered seed was never intended to be grown in this way. It was intended to be produced by a man who would start in a small way first, and would give it his own personal and most particular daily attention; that he would, for instance, never grow seed on 100 acres, then feel their way, and learn to tract for anyone else, and that he would clean and sack the seed on doing it.

Those who wish to enter the Registered seed business, I would suggest, should try their hand, the first year, on a maximum of 10 acres, then feel their way, and learn to tract for anyone else, and that he would clean and sack the seed on doing it.
